- (4) 15 f

- (5) Overcast.

- (6) No thunderstorms.

It is difficult to imagine what would make this apparently experienced AF man to report red and white lights.

He has probably been reading too much about flying saucers.

688th AC&W Squadron, OPS, Subject: Unidentified Flying Object Report

h. Any other unusual activity or condition, meteorological, astronomical, or otherwise, which might account for the sighting.

(1) None.

i. Interception or identification action taken (such action may be taken whenever feasible, complying with existing air defense directives).

(1) Checked weather for balloon launching. WK balloon was launched at 2300Z 9 Nov 57 but should have been around 60 miles east of Amarillo at about 55 to 60 thousand ft.

j. Location of any air traffic in the area at time of sighting.

(1) Normal IFR traffic - exact location not known.

k. The following comment is submitted by the Operations Officer 688th AC&W Squadron, Edmund E. Kelley, Captain, USAF.

There has been a rash of such sightings in this area in the past month and a lot of publicity about the so-called unidentified flying objects. This publicity has made many people conscious of such things and we are doubtful as to the truth of some of these sightings.
